

Paediatric First Aid for Parents With Little Owls Day Nursery

Dear Families,

At Little Owls we endeavour to support our children and families health, safety and well-being in any way that we can.

- **Would you like to know more about how to treat minor injuries such as head bumps, burns and sprains?**
- **Would you know what to do if your child experiences unconsciousness, choking or breathing difficulties?**
- **Would you like to feel more confident in administering First Aid for your young children?**

If you answered 'Yes' to any of the above then Little Owls can help you!

Our staff team all benefit from frequent online training via Noodle Now where we have the opportunity to refresh our knowledge on a variety of subjects related to early years and childcare. This year our Directors were able to negotiate an extra within our training package that will be of benefit to our parents who wish to expand their knowledge of First Aid.

All of the training is completed online and you will receive your log in details, and password so you can access this at your leisure. There are five modules covering all aspects of Paediatric First Aid.

If you would like to access this please contact your manager via email, please include **your name, your child's name and the email address** you would like us to use to set up your account.

Happy Noodling! From all at Little Owls.
